

**Christmas Wreaths – No Bake Cookies
(Makes 18)**

1 – 16oz marshmallows
½ cup GFCF Margarine (blue bonnet light)
1 ½ teaspoon vanilla
1 ½ teaspoon green food color
4 ½ cups cornflakes
red hot cinnamon candies

Melt margarine and marshmallows in microwave. Cook on high for 3 minutes stirring every minute. If not melted so you can stir them smooth heat for 30 seconds at a time until don. Stir in vanilla and green food coloring till totally mixed. Add cornflakes. Drop a tablespoon on waxpaper and form into a circle. Decorate with red hot candies.

I thought about making them with rice crispies, I think you could shape smaller wreaths but my daughter vetoed the idea. I found a bunch of versions of these on the web. This is mostly the same as one posted by Heather Dolan on All Recipes.
